**Transfer via:** Flight , arranged on your own

**Accommodations:** Swissotel Quito (5 star), Swiss Business Advantage Room

Once you arrive in Quito you will be warmly welcomed by your guide and transferred to your hotel. Quito, the country's capital, is an old Andean city, and although it doesn't maintain much of its Inca origins, it's still a testimony to the history of Ecuador and the merging of the Spanish and native cultures. Its historic downtown is the largest and best conserved in all of Latin America; and its buildings, being the most prominent the churches, basilica and cathedrals show the influence the Spanish conquest had on native people, while at the same time demonstrating little acts of rebellion that were imprinted in the form of the sun always being present in the highest place. It's a perfect representation of the modern Quiteños who always find a way to encounter and defy their problems with a bit of salty humor. The cobbled stoned streets invite you to explore the colonial buildings and maybe make a stop to try the local cuisine. Canelazo and some empanadas de viento will give you the strength and warmth needed to travel across the many stories that the city has to offer just by walking around.

### Day 2

Mon 02-Nov-2026 **Quito**

**Meals:** Breakfast

**Accommodations:** Swissotel Quito (5 star), Swiss Business Advantage Room

This tour starts in the historic center of Quito. During the tour you will visit emblematic places, your guide will use all of his knowledge of the city to take you through colonial streets and other places of interest, such as a visit to an authentic local market, where you will be able to perceive a mixture of smells, between cumin and palo santo and also find more than 250 stalls where you can buy fruits, vegetables, medicinal plants, herbs, meat and seafood. At this market we will try some of the typical Ecuadorian fruits, also, in its halls you can see how time has stopped, it is easy to see religious images, colors, women wearing scarves, a parade of hats and faces. Visit one of the most beautiful churches in Latin America which is Iglesia de la Compañía the architecture of the church was inspired by the Gesù church in Rome and the pillars are exact copies of the pillars that were made by Bernini in the Vatican. This beautiful tourist place in Quito is an architectural jewel in the best-preserved historical center of Latin America. The church La Compania, has been catalogued by UNESCO among the hundred most important World Heritage Site Monuments in the world. After an integral restoration, which took 12 years, the church is a magnificent example of the extraordinary artistic

ability of the Ecuadorian artisans! During the afternoon take the way to visit the Equatorial Monument is one of the most interesting attractions of Quito. Be in the middle of the World and enjoy the different experiments in the Intiñan museum. Try to balance an egg on a nail or watch water spin opposite ways, and while some of the exhibits might be staged, the concepts behind the gravity and physics are curiously entertaining. In addition to exhibits about the Equator, the Intiñan Museum also offers a look at Ecuador's culture, from the biodiversity of the Galapagos Islands to Amazonian tribes. A true experience! Before getting back to Quito, there is another interesting activity to visit the Agave House, it is the first museum in Ecuador created 100% in honor of the Andean agave culture (Agave, plant that use to make a traditional liquor), in the same way, it is a tribute to the Mishqueros guardians of this wonderful tradition.

This island is mostly known for the many land iguanas that live on it. When you are a little further from the coast, it looks like you've walked into the movie Jurassic Park, because you will be eye to eye with beautiful green, yellow and orange land iguanas. This is all surrounded by beaches, beautiful cacti and in the background the blue ocean. At the coast, the male sea lions live in peace. The militant lifestyle is only maintainable for males who are in their prime. The elders spend their last days in colonies, of which one can be found at Plaza Sur. It is sensational to see how the sea lions and iguanas mix. They play together as real pals. This island also offers a lot to bird lovers and a so-called birdwatchers paradise can be found; a steep cliff with swallow-tailed gulls, masked boobies, blue-footed boobies, tropical red-bill birds, frigates, and pelicans.
